But while he was thinking about it, Losen's men, used to wizard's tricks, drugged his food."It's a rare gift, to know where you need to be, before you've been to all the places you don't.file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (41 of 111) [2/5/2004 12:33:31 AM].behind existed now only in my memory..perceiving the school as a threat to the uncontrolled individual power of the mages, came with a.He walked down the stragglng street of Purewells to Sans house, which was about midway, opposite.In the confusion of Otter's mind, he was only dimly aware that they were going now towards the entrance of the mine. They went underground. The passages of the mine were a dark maze like the wizard's words. Otter stumbled on, trying to understand. He saw the slave in the tower, the woman who had looked at him. He saw her eyes..pressed, and into my palm fell a colored, translucent tube, slightly warm. I shook it, held it up to.stared at Irian; then with a brief nod he went on. She looked back at him. He was looking back at.him. He drew closer to Irian. He felt the warmth of her body. She stood staring, in that animal."You have a gift for the business," Crow said. "You know where to look. Went straight to that.changing," he mumbled at last.."Good," he said, and that was the last word he spoke to Ivory.."Straining," Heleth said, his hand still absently, gently patting the dirt as one might pat a.quarreled with a stable boy, and turned the poor lad into a lump of dung. When the wizards had got.building by a conveyor belt set against the wall. The girl entered this loggia, and I, my eyes now.He came up on deck again. It was clearing, and as the sun set the clouds broke all across the west, showing a golden sky behind the high dark curve of a hill..In return he told Veil and Ember about the mines of Samory, and the wizard Gelluk, and Anieb the slave..long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo."Tinaral," said Tern. "I knew him." "Things don't mix," he said. "They ought to, but they don't. I found that out. When I left the wizard, I thought I could be everything. You know -- do magic, play music, be Father's son, love Rose.... It doesn't work that way. Things don't mix." "What did she do?" Ayo asked, softly..The wizard stepped forward. "I come," he said in his joyous, tender voice, and he strode fearlessly into the raw wound in the earth, a white light playing around his hands and his head. But seeing no slope or stair downward as he came to the lip of the broken roof of the cavern, he hesitated, and in that instant Anieb shouted in Otter's voice, "Tinaral, fall!"..and litigations. Farmlands went to weeds, farmsteads went unroofed, milking sheds stood unused..The curer said nothing to the cowboy but went straight to the mule, or hinny, rather, being out of San's big jenny by Alder's white horse. She was a whitey roan, young, with a pretty face. He went and talked to her for a minute, saying something in her big, delicate ear and rubbing her topknot.."No! People?"..It was hard to be aware of her through the wizard's talk and the constant, half-conscious controlling spells that wove a darkness round him. But when Otter could do so, then it was not so much as if she was with him, as that she was him, or that he was her. He saw through her eyes. Her voice spoke in his mind, stronger and clearer than Gelluk's voice and spells. Through her eyes and mind he could see, and think. And he began to see that the wizard, completely certain of possessing him body and soul, was careless of the spells that bound Otter to his will. A bond is a connection. He-or Anieb within him-could follow the links of Gelluk's spells back into Gelluk's own mind.."But you can't force him to drink," I continued patiently..South of Andanden lies a land where the ashes fell a hundred feet deep when last the volcano spoke. Rivers and streams cut their way seaward through that high plain, winding and pooling, spreading and wandering, making a marsh of it, a big, desolate, waterland with a far horizon, few trees, not many people. The ashy soil grows a rich, bright grass, and the people there keep cattle, fattening beef for the populous southern coast, letting the animals stray for miles across the plain, the rivers serving as fences..These legends are best preserved in Hur-at-Hur, the easternmost of the Kargad Lands, where dragons have degenerated into animals without high intelligence. Yet it is in Hur-at-Hur that people keep the most vivid conviction of the original kinship of human and dragon kind. And with these tales of ancient times come stories of recent days about dragons who take human form, humans who take dragon form, beings who are in fact both human and dragon..They paid no attention to me, as if I did not exist. I got furious. Without a word I stepped."You take care," the witch said, grim. The spring wind blew strong, seaward, off Roke Knoll, blowing the water of the fountain astray. Up on the slope of the Knoll they could see a little group of people: a circle of young students learning how to do tricks of illusion from the sorcerer Hega of O; Master Hand, they called him. The sparkweed, past flowering, cast its ashes on the wind. There were streaks of grey in Ember's hair..Hearing he was there, the teachers of Roke came, the men and women who were masters of their..These kings and queens had some knowledge of the Old Speech and of magery. To write in the True Runes, as to speak the Old Speech, is to guarantee the truth of what one says-if one is human. Human beings cannot lie in that language.
