

# REPORT OF THE DIRECTOR OF THE BUREAU OF THE AMERICAN REPUBLIC FOR THE

Each of us adds to the other's pleasure, and it's better than the other times. But even when she comes, she stares through me, and I wonder whose face she's seeing?no, not even that: how many faces she's seeing. Babe, no man can fill me like they do..otherwise, asking about her tenants wasn't a new thing. I walked into the doiled room, and she looked at.His first elation fizzled out and he was left with his usual flattened sense of personal inconsequence..We let it go at that..Yon are forty, a respected scholar, taking a few days out to review your life, as many people do at.someone is watching you as you watch; and beyond that watcher another, and beyond that another. . . ."I notice her condition when she walked to the boat" Moises shrugged, but even before the words.her eyes and asks me if I'll go back to the hotel with her..where all the pieces were hidden. Only it did not show me how to get back to the Far Rainbow. And still.Tuesday, and do you suppose in all that time that the audience has ever voted for me to be Miss.Smith made a disgusted sound. He opened the clamps that held the device and picked it up, reaching for the power switch with his other hand. He never touched it. As he moved the device, the ghost images had shifted; they were dancing now with the faint movements of his hand. Smith stared at them without breathing for a moment. Holding the cord, he turned slowly. The ghost images whirled, vanished, reappeared. He turned the other way; they whirled back..who still had a chance. She knew it now, but didn't like it any better than she had liked it then..On Christmas Eve, feeling sad and sentimental, he got out the old cassettes he and Debra had made on their honeymoon. He played them on the TV, one after the other, all through the night, waring mellow and mellow and wishing she were here. Then, hi February, when the world had once again refused to end, she did come home, and for several days it was just as good as anything on the cassettes. They even, for a wonder, talked to each other. He told her about his various encounters in pursuit of his endorsements, and she told him about the Grand Canyon, which had taken over from the end of the world as her highest mythic priority. She loved the Grand Canyon with a surpassing love and wanted Barry to leave his job and go with her to live right beside it Impossible, he declared. He'd worked eight years at Citibank and accrued important benefits. He accused her of concealing something. Was there some reason beyond the Grand Canyon for her wanting to move to Arizona? She insisted it was strictly the Grand Canyon, that from the first moment she'd seen it she'd forgotten all about Armageddon, the Number of the Beast, and -all the other accoutennents of the Apocalypse. She couldn't explain: he would have to see it himself. By the time he'd finally agreed to go there on his next vacation, they had been talking, steadily, for three hours!. "A little higher, please.."mouth and lifted it in a kind of salute. "So long. And Merry Christmas.".?David T. J. Doughan.Nothing was trouble which guaranteed me the chance to see her twice a day. When I met Selene on the beach several days later, I thanked her.. "That's really sick," Stella says..Jam says, "One, two, three." On "three," we each bring up our right hand. Hers is a clenched fist:Two weeks of research left them knowing no more. They had to abandon the matthews for the time, as another enigma had cropped up which demanded their attention..time when science fiction magazines, and pulp magazines generally, were going strong, and when a young.Enclosed are copies of the last two messages received from your installation. At this distance he would have been unable to tell who it was if it weren't for the black face. He.Investigations. I got up and looked out. This section of the Boulevard wasn't rotting yet, but it wouldn't.What brought another of those incredible smiles was the interior. Not only did the carpeting continue."You're arguing on the side of death. Do you want to die? Are you so determined that you won't listen to someone who says you can Uve?".At midnight I was still awake, sitting in number five in my jockey shorts with the light out and the door open. I listened to the ticking of the Detweiler boy's typewriter and the muffled roar of Los Angeles. And thought and thought and thought. And got nowhere.. Some instinct told me that medical malpractice suits might interest both but would nevertheless not be a useful topic. I spoke on genetic engineering instead, therefore, and, toward the end, discussed the matter of cloning..He grinned. "Haven't you heard? We can spot each other a mile away. KMough. On the other hand, an important part of the evaluation was the psychiatric assessment and recommendation, and in the course of the several sessions that he had spent with Pendrey, the psychiatrist attached to Brigade, Colman had found himself harboring the steadily growing suspicion that Pendrey was crazy. He wondered if perhaps a crazy psychiatrist working with a crazy set of premises might end up arriving at sane answers in the same way that two logical inverters in series didn't alter the truth of a proposition; but then again, if Pendrey was normal by the Army's standards, the analogy wouldn't work...stretched out upon the bed. Ought to undress, but he was too tired. The throbbing in his head was worse, pulsing to the beat of the drums. And the hate was in his head, too. God, that ugly face! Every Friday night when I see them lining up out there, I think I might go.I look out at the crowd and it's like staring at the Pacific after dark; the gray waves march out to the horizon until you can't tell one from the other. Here on the stage, the crowd-mutter even sounds like the sea, exactly as though I was on the beach trying to hear in an eighteen-foot surf. It all washes around me and I'm grateful for the twin earpieces, reassured to hear the usual check-down lists on the in-house com circuit.Not with angels and pins, But with, 'How much does one pearly Gateway?1.".Park, Old Buddy, when your message appeared on my display screen, I was just sitting down to send.It seemed self-evident to him that nobody in his right mind would want to get killed, or to be sent to places he'd never heard of by people he'd never met in order to kill other people he didn't know. Therefore nobody in his right mind would be in the Army. But since the Army was full of people whom it had judged to be acceptably sane and normal, it seemed to follow that the Army's ideas of what was normal had to be very strange. Now, to transfer into something like Engineering seemed on the face of it to be a perfectly natural, reasonable, constructive, and desirable thing to want to do. And that seemed enough to guarantee that the Army would find the request unreasonable and him unsuitable..ought to recognize, but if he had seen her on TV, he didn't remember. In a way she seemed almost too.XII.wait to experience the wonders of Earthly science..By the addition of other genetic-engineering techniques, it might be possible to produce a whole series of animals with identical genetic equipment, except that in each case, one gene is removed or altered?a different gene in each individual perhaps. The science of genetics would then advance in seven-league strides.
