The ice chips flew around him, and he worked up such a sweat that in all the cold he still had to take off his shirt. He worked so hard that in one hour he had laid open the chunk, and there, sticking out, was the broken fragment of mirror. Tired but smiling, the prince lifted it from the ice and handed it to Amos. Then he went to pick up his shirt and coat.. "When we were bora," he said, and his eyes focused again, "we were joined at the back. But I grew." "Just for the afternoon." The wealthy merchant stiffened. "Are you implying that my concern for the Project derives from a.I will?when the authors keep politics out of their stories. But they never do; in fact, it seems absolutely impossible to write anything without immediately making all sorts of assumptions about what human nature is, what good and bad behavior consists of, what men ought to be, what women ought to be, which states of mind and character are valuable, which are the opposite, and so on. Once fiction gets beyond the level of minimal technical competence, a reviewer must address these judgments of value. Generally, readers don't notice the presence of familiar value judgments in stories, but do notice (and object to) unfamiliar ones as "political." Hence arises the insistence (in itself a very vehement, political judgment) that art and politics have nothing to do with one another, that artists ought to be "above" politics, and that a critic making political comments about fiction is importing something foreign into an essentially neutral area. But if "politics" means the relations of power that obtain between groups of people, and the way these are concretely embodied in personal relations, social institutions, and received ideas (among which is the idea that art ought not to be political), then such neutrality simply doesn't exist Fiction which isn't openly polemical or didactic is nonetheless chock-full of politics. If beauty in fiction bears any relation to truth (as Matthew Arnold thought), then the human (including social and political) truth of a piece of fiction matters, for aesthetic reasons. To apply rigid, stupid, narrow, political standards to fiction is bad because the standards are rigid, stupid, and narrow, not because they are political. For an example of (to my mind) profound, searching, brilliant, political criticism, see Jean-Paul Sartre's Saint Genet..By day, in his deer shape, Brother Hart would go out and forage on green grass and budlings while his sister remained at home..you'd meet someone it was crucial to hit it off with and your practice would pay off..I've got ten seconds to stare out at that vast crowd.
