there?" "That wall is not as deep-rooted as my trees," said the Patterner. "Yes," Irioth said. "I understand. You are a kind woman." She was talking about him, about his not knowing what he was doing. She was forgiving him. "A kind sister," he said. The words were so new to him, words he had never said or thought before, that he thought he had spoken them in the True Speech, which he must not speak. But she only shrugged, with a frowning smile..in himself for his mastery of them. So, after the Archmage Nemmerle had given him his name, the."Ivory! That fellow that studied with the Hand? Is he here?" the Changer demanded of Irian.,around them, a few lights glimmering, pulsing, so that they were encircled now by an orange.They needed no persuasion. They rode off leaving everything behind, their blankets, the tent, the iron pot. "How do we get all that back to the village?" he asked the hinny. She looked after the two ponies and said what hinnies say. "Aaawww!" she said. She would miss the ponies..There was a long pause.."We must give what we have to give," said Medra. "If all but us are slaves, what's our freedom.You must make your choice alone, as a man. Do you understand that?" Golden was earnest, seeing his chance to begin to wean the lad from his mother. She as a woman would cling, but he as a man must learn to let go. And Diamond nodded sturdily enough to satisfy his father, though he had a thoughtful look.."Are you there, my dear?" said the traveler. He wasn't sure whether he had summoned her or she had come of her own will; he didn't know how she had spoken the word of the Old Tongue to him or through him. He didn't know what he was doing, or what she was doing, and he was almost certain that the working of any spell would rouse Gelluk. But at last, rashly, and in dread, for such spells were a mere rumor among those who had taught him his sorcery, he summoned the woman in the stone tower..Forms of fiefdom, vassalage, and slavery have existed at times in some areas, but not under the.Sleeping out on deck with the starlight on his face, he had a simple, vivid dream: it was.find him here. He looked at her now, not glancing but squarely, his eyes catching and holding hers. "But there. In the wood. Under the trees. There is the old wisdom. Never old. I can't teach you. morning, the marshes hidden by gleaming. Azver went quickly to where Irian lay beside the stream, and the others followed him. She roused up and got to her feet, looking dull and dazed. They were standing around her, a kind of guard, when the group of thirty or more men came past the little house and approached them. They were mostly older students; there were five or six wizard's staffs among the crowd, and the Master Windkey led them. His thin, keen old face looked strained and weary, but he greeted the four mages courteously by their titles. . . . tale, the mounted figures that walked through bright mist across the vague dun of the winter. HE SPENT THE NIGHT in their old place in the shallows. Maybe he hoped she would come, but she did not come, and he soon slept in sheer weariness. He woke in the first, cold light. He sat up and thought. He looked at life in that cold light. It was a different matter from what he had believed it. He went down to the stream in which he had been named. He drank, washed his hands and face, made himself look as decent as he could, and went up through the town to the fine house at the high end, his father's house. . . . He had power to raise huge waves on the sea, and to stop the tide or bring it early; and his voice could enchant whole populations, bringing all who heard him under his control. So he turned Morred's people against him. Crying out that their king had betrayed them, the villagers of Enlad destroyed their own cities and fields; sailors sank their ships; and his soldiers, obeying the Enemy's spells, fought one another in bloody and ruinous battles. . . . Later he knew he should never have let the boy leave the house. He had underestimated Diamond's willpower, or the strength of the spell the girl had laid on him. Their conversation was in the morning; Hemlock went back to the ancient cantrip he was annotating; it was not till supper time that he thought about his pupil, and not until he had eaten supper alone that he admitted that Diamond had run away. "No, I don't," I replied, unexpectedly stubborn. She went to the bar and brought back a. In a whisper the witch said, "Woman, be named. You are Irian." . . . murmured. "So young. The Patterner's voice had grown rougher, and he suddenly brushed the little design of pebbles apart with the palm of his hand. . . . her name, while he walked to meet her. He made out the big head more by touch than sight, stroking. The summer ended too soon that year. Rain came early; snow fell in autumn even as far south as Roke. Storm followed storm, as if the winds had risen in rage against the tampering and meddling of the crafty men. Women sat together by the fire in the lonely farmhouses; people gathered round the hearths in Thwil Town. They listened to the wind blow and the rain beat or the silence of the snow. Outside Thwil Bay the sea thundered on the reefs and on the cliffs all round the shores of the island, a sea no boat could venture out in. . . . sailed out of the east to lay the land waste and spit innocent babes on their lances, and the. back now?" . . . upward) that I was in the elevated part of the station; nevertheless I kept going in the same. centers, like fat on muscle, they passed upward, I lost count of them; the elevator fell, fell, it was. She nodded. . . . their blood ran mingled, making the sand red. . . . wizard Hemlock, who had known his great-uncle the Mage, came up from South Port to name him. And. After a while Ayo said, "She went down to Firn with some of the young folk. To buy fleece from the shepherds there. A year ago last spring. That wizard they spoke of came there, casting spells. Taking slaves." . . . The beginning of the first stanza is quoted in

Tehanu: .file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (58 of 111) [2/5/2004 12:33:31 AM]. "You could have taught me! You never would!" . . . "Take your shoes off," she said, "they're soaking. Come in then." She stood aside and said, "Come to the fire," and had him sit down in Bren's settle close to the hearth. "Stir the fire up a bit," she said. "Will you have a bit of soup? It's still hot." . . . Deeds, lays, songs, and popular ballads are still composed as oral performances, mostly by professional singers. New works of any general interest are soon written down as broadsheets or put in compilations. . . . because they were Gontish matters, truths of Gont. Everyone was seated now. . . . They came to where the miners were extending the old tunnel. There the wizard spoke with Licky in the flare of candles among jagged shadows. He touched the earth of the tunnel's end, took clods of earth in his hands, rolled the dirt in his palms, kneading, testing, tasting it. For that time he was silent, and Otter watched him with staring intensity, still trying to understand. . . . Tern left late that year on his journey. He had with him a boy of fifteen, Mote, a promising. to absolute chastity, enforced by self-cast spells. At the school on Roke, the students lived. No cloak, no staff. . . . obey, your majesty." He summoned his wizards, and the mage Early came, bowing low. "Make me walk!" . . . Otter sat up at last. He was wet, cold, bewildered. Why was he here? . . . I opened it. There was more light behind it. The hedges ended in a wide clearing, from the grass. Golden reassured him that the wizard had actually said so, though of course what kind or a gift. "Destroy us? Destroy this hill? The trees there?" She looked down to a grove of trees not far from the hill. "Maybe Segoy who made them could unmake them. Maybe the earth will destroy herself. Maybe she'll destroy herself through our hands, in the end. But not through yours. False

king, false dragon, false man, don't come to Roke Knoll until you know the ground you stand on." She made one gesture of her hand, downward to the earth.. "Hu-hu-hu," said the owl, under her window, and then it said, "Darkrose!" Startled from her. "Silence is not enough, my lord," said one who had not spoken before. To Irian's eyes he was very strange-looking, having pale reddish skin, long pale hair, and narrow eyes the colour of ice. His speech was also strange, stiff and somehow deformed. "Silence is the answer to everything, and to nothing," he said..wizards' spells were made, was the word tures. He had said it meant semen. Among them had been neither the name of semen nor the name of quicksilver. But his lips parted, his tongue moved. "Ayezur" he said..said, and left the room.
