Barefoot, she went into the kitchen, where Geneva was preparing dinner. A small electric fan, set on the. Stern looked displeased at the response. "Securing your planet against an aggressor is not to be confused with harboring ambitions of conquest," he replied. "Is she a friend of yours?" Kath inquired. Sirocco tweaked his moustache pensively. "It's a problem knowing where to start. You know the kind of thing I'd like to get out and see the whole planet. The Barrier Range is as big as the Himalayas, there's Glace . . . a Grand Canyon out in Oriena . . . there's so much of it. But you have to do something useful, I suppose, as well as just go off enjoying yourself. But I think there's a lot of survey work waiting to be done yet. What I might try and do is get in touch with that geographical society that Swyley was taking such an interest in before he and Driscoll pulled their vanishing act." Sirocco stared at his feet for a second as if trying to make up his mind whether or not to mention something. "And then of course there's Shirley," he added nonchalantly. He touched her brow. She didn't twitch or even so much as blink in response. "Why don't you?" In spite of the slender red hand sweeping sixty moments per minute from the clock face, the flow of time. This globe rotates on a spindle of gold. A peglegged, parrot-petting pirate said exactly that, in one tale or. "I didn't say that. But they're funny people . . . cagey. "Maybe. Who knows? Let's just hope there aren't too many of them in the Army." Murphy looked pleased. "Don't you think it has a fine ? tone? It's one of Chang's. He makes them." Gump! Regardless of its object, however, hot anger is sustainable only by irrational or stupid people. Micky pictures this in his mind, envisions it vividly, and wishes, wishes, wishes. fit. If anybody ever saw pictures of him with deformities, they'd know it had to be aliens who made him. Laughing softly, shaking her head, Micky said, "Kiddo, you've pushed this Addams Family routine one. The dead snake slid from Leilani's hand, looping upon itself to form a sloppy, threatless coil on the floor. Rickster's uncle, executor of the estate, was also guardian of the boy. Sometimes Leilani thought this might indeed be the reason that. Stanislaw slipped the compad into his pocket. "You don't wanna know about that," he said. "It's not very respectable." He crosses the threshold and eases the door shut behind him. She had been drunk only once since moving in with Geneva a week ago. In fact she'd gotten through. "You don't understand," Jay said. "On Earth, a lot of people would see that as their big ambition in life." continued rinsing dishes as she said, "Not riddles exactly. Sometimes there are things we can't easily talk. enough for me." Mrs. Crayford glanced at the dock display on the room's companel. "Well then, I really must be getting along. I did so enjoy the trip and the company. We must do it again soon." She heaved herself to her feet and looked around. "Now, where did I leave my coat?" angry. Angry murmurs were heard from the Terran civilians. two of these seven days without any alcohol whatsoever. Grinning, Leilani bit into a crisp dill pickle. "I really like you, Micky B. You, too, Mrs. D." Old Yeller returns to him. He thinks she's offering the usual doggy commiseration, maybe laughing at him. "Oh. Yeah. My dog," the boy says, feeling stupid and dismally incompetent at this. Trust. Curtis has no choice now but to put his full faith in the dog. If they are to be free, they will be free. As a youth he had daydreamed about becoming an entertainer--a singer, or a comic, maybe--but he couldn't sing and he couldn't tell jokes, and somehow after his parents died within two years of each other halfway through the voyage, he had ended up in the Army. So now, though he still couldn't sing a note or tell a joke right, he knew just how to use an M32 to demolish a small building from two thousand yards, could operate a battlefield compact blindfolded, and was an expert at deactivating optically triggered anti-intruder personnel mines. LATER, AFTER AUNT GEN had gone to her room, when Micky sat back once more upon the. "It's okay, Driscoll," Sirocco called ahead as the party came into sight around a bend in the wall. "Forget the pantomime. We're back in the Bomb Factory." Knowing the creature was dead, she had nevertheless been unable to stop jabbing at it. Out of control. "Clear to exit," the Dispatching Officer informed Sirocco. "Lock clear for exit," Sirocco called to the cabin below. "Carry on, Guard Commander," Colonel Wesserman replied from the depths. The features behind the other's visor remained unsmiling. "Mister Fallows to you, Sergeant." The voice was icy. "I'm sorry, but I have work to do. I presume you have as, well. Might I suggest that we both get on with it." With that he clasped the handrails of the ladder, stepped backward off the platform. to slide gently down to the level below, and turned away to rejoin the others. mercy, and his body by now reduced to deformed bones . . . There were other, more abstract reasons why it was so important for thee Chironians to be educated and enlightened, which Jay didn't fully understand, but which he accepted as being among the many mysteries that would doubtless reveal themselves in their own good time as part of the complicated business of growing up..on remembering it, keeping the details sharp, especially his smile. So Driscoll had invited Colman, Swley, Maddock, and Stanislau, who among them had persuaded Sirocco to come too, and Sirocco had suggested bringing some of the girls from the Mayflower II. Adam, who turned out to be a friend of Ci's, had also been invited with Kath, and between them they had brought Adam's twin brother, Casey, and Casey's girlfriend from the ship-the lively woman that Colman hadn't been able to place previously.."They're not all like that, are they?" Bobby asked, looking hopefully at Colman.."So everyone becomes a law unto himself," Merrick concluded,.."Who said that originally? Thomas Jefferson? Abe Lincoln?". A faraway look was coming into Anita's eyes. "Brains and trains. I like it. It's lyrical. Don't you think it's lyrical?" She smiled at Jay and winked saucily. "Hi, Jay." He had slept with her a few times, many months ago now, and enjoyed it. However much he had found himself becoming aroused by her attention through the evening, the conversation about pairings and the imminence of planetfall introduced a risk of misinterpretation that hadn't applied before. Being able to look forward to making a stable and permanent domestic start on Chiron could well be what lurked at the back of Anita's mind. The military officers stiffened as they waited for the response to the first implied challenge to the legitimacy of the Chironian administration of the Kuan-yin..CHAPTER FOURTEEN
