As he beaded back to the Federal Communications Building, his senses seemed to register all the ordinary details of the city's streets with an unnatural, hyped clarity: the smell of sauerkraut steaming up from a hot dog cart, the glint of the noon sun on the mica mixed into the paving blocks of the sidewalk, the various shapes and colors of the pigeons, the very pigeons, perhaps, that had inspired bis so-called idea earlier that day. But it was true, what he'd said. All the pigeons were the same size..never let a man touch me, but she?shell have any man who strikes her fancy, just like her mother.". "You're right," he said. "What we need is a pilot, and that pilot is Commander Weinstein. Which presents problems legally, if nodiing else. He's the captain of a ship and should not leave it. That's what kept him on the Edgar in the first place. But he did have a lot of training on the lander simulator back when he was so sure he'd be picked for the ground team. You know Winey, always the instinct to be the one-man show. So if he thought he could do it, he'd be down here in a minute to bail us out and grab the publicity. I understand they're trying to work out a heat-shield parachute system from one of the drop capsules that were supposed to ferry down supplies to us during the stay here. But it's very risky. You don't modify an aerodynamic design lightly, not one that's supposed to hit the atmosphere at ten thousand-plus kilometers. So I think we can rule that out.\* Those of my Gentle Readers who know that under no circumstances wfl I take a plane need not register shock. But rather than distress Amanda further by asking about it, I bit my tongue and. "Well, as you don't appear to be either a mugger or a rapist, there had to be some reason you followed a dotty old woman home from her latest nervous breakdown. Let's make a deal, shall we?" "Okay, keep spread out on both sides, everybody. She went on like that, whispering about creatures half-serpent and half-human, with bodies cold to you.. behind. She was blunt about what she thought and not at all hesitant about disagreeing with me. Still, grey man could guess for himself. So he untied the jailor and called the sailors and made plans for Amos. "It would be all right for a while," she recalled. Congreve's voice rumbled in a gravelly baritone from the speakers all around. He glanced from side to side to take in the whole of his audience. "I, ah--I almost didn't make it here at all." He paused, and the last whispers of conversation died away. "A sign in the hall outside says that the fossil display is in twelve-oh-three upstairs." The American Archeological Society was holding its annual convention in the Hilton complex that week. Congreve shrugged "I figured that had to be where I was supposed to go. Luckily I bumped into Matt on the way, and he got me back on the right track." A ripple of laughter wavered in the darkness, punctuated by a few shouts of protest from some of the tables. He waited for silence, then continued in a less flippant voice. "The first thing I have to do is thank everybody here, and all the NASDO people who couldn't be with us tonight, for inviting me. Also, of course, I have to express my sincere appreciation for this, and even more my appreciation for the sentiments that it signifies. Thank you--all of you." As he spoke, he gestured toward the eighteen-inch-long, silver and bronze replica of the as yet unnamed, untried SP3 star probe that stood on its teak base before Congreve's place at the main table.. across forty million miles.. And that was all there was to it--he had passed his exam with a score just five points short of the crucial eighth percentile. Which was a tremendous accomplishment but also rather frustrating in a way, since it meant he'd come that close to not having to bother scouting out two more endorsements. Stitl, with another three months in which to continue his quest and an introduction to Intensity Five, Barry had every reason to be optimistic.. By trial and error, Smith has found the settings for Dallas, November 22, 1963: Dealey Plaza, 12:25 P.M. He sees the Presidential motorcade making the turn onto Elm Street. Kennedy slumps forward, raising his hands to his throat. Smith presses a button to hold the moment in tune. He scans behind the motorcade, finds the sixth floor of

the Book Depository Building, finds the window. There is no one behind the barricade of cartons; the room is empty. He scans the nearby rooms, finds nothing. He tries the floor below. At an open window a man kneels, holding a high-powered rifle. Smith photographs him. He returns to the motorcade, watches as the second shot strikes the President. He freezes time again, scans the surrounding buildings, finds a second marksman on a roof, photographs him. Back to the motorcade. A third and fourth shot, the last blowing off the side of the President's head. Smith freezes the action again, finds two gunmen on the grassy knoll, one aiming across the top of a station wagon, one kneeling in the shrubbery. He photographs them.
